Delivery on All Bulbs

THE prices quoted in this catalog represent the **entire** cost of our Bulbs to you. Where cash in full accompanies order, we prepay all transportation charges. The cost of this service is not added to our prices but absorbed by us to encourage American home owners to buy direct from Holland growers.

IT IS our purpose to render a personalized service to American home owners. Every detail of our business is closely supervised by a member of our firm.

Our Dutch Bulbs are grown in our own fertile fields at Hillegom, Holland, under the personal supervision of K. H. Van Bourgondien.

Certain Bulbs, such as Daffodils which grow well in the United States are produced at our Nurseries at Babylon, Long Island, under the supervision of Peter Van Bourgondien, also a member of the firm.

The Bulbs quoted in this Catalog are all Top-Size. This is the largest size the market affords, often called "Exhibition Size."

We own and operate large warehouses, both at Hillegom, Holland, and at Babylon, L. I., N. Y. We are thus able to control every growing and storing operation so as to assure you bulbs which are true to name and of the highest quality.

We place the bulbs in your hands, in perfect condition, full of life and ready to grow.

Points to Remember—Please Read Carefully

Prepaid Shipments.—We prepay all carrying charges to destination on orders accompanied by cash.

C. O. D. Shipments.—We will book your order on receipt of 25% of the amount of the order; the planting material will be shipped C. O. D. including transportation charges.

Minimum Orders.—We cannot fill orders below \$1.00. Also please omit orders for less than six of a variety unless a price on each is quoted. Six or more of a variety are sold at the dozen rate; twenty-five or more of one variety at the hundred rate; two hundred fifty or more of one variety at the thousand rate.

Order Blanks—are enclosed for your convenience. You may wish to use one now and one later, or you may have a friend who may wish to use the extra order sheet.

Extra Catalogs.—We will gladly send copies of this catalog to any of your friends upon receipt of their addresses.

Giant Darwin Tulips

May-Flowering

THESE Tulips have created a real sensation for the past few years, and one really does not wonder when seeing them in full bloom. They got their reputation through merit alone. They are most brilliant in color and of the greatest variety of shades. Each flower is extremely large, producing a most gorgeous show in any garden, either in beds, borders or among shrubbery.

Old English Cottage Tulips

May-Flowering

THE TULIPS belonging to this class owe their name to the fact that many of them had been found growing about country houses and cottages in England and France generations ago. In the hands of skillful gardeners, and by careful hybridizing and selecting the best soil that could be found, the collection has become very extensive. All imaginable colors are now represented in this class. They all have long stems and very graceful formation and are therefore unsurpassed for the garden and excellent for cutting.

Botanical Tulips

Matchless for Borders and Rock Gardens

These are the original species Tulips from which our cultivated forms are descended. They are natives of Central Asia and Asia Minor. Among them you will find an endless variation of shapes, colors, types and flowering seasons. Most of them are fine for the rock garden, also for planting in front of the larger cultivated varieties.

The Majestic Breeder Tulips

THEY well deserve their popularity, not only for their peculiar and artistic coloring, but for their lasting qualities as well, for this makes them unusually well suited for garden decoration, slow forcing, and cut flower use. In size of flower, length and strength of stem, and general beauty they far excel the Darwins.

Tulips of this class will prove very interesting on account of their peculiar forms and different habits of growth.

JAPANESE IRIS

THIS queen of the large-flowering Irises is very attractive. It flowers a little later than the German Irises, which adds greatly to its popularity. The flowers are of an enormous size and there are single and double varieties, both being equally attractive and suitable for cut flowers, as they really develop into a more perfect bloom if they are cut just before the bud opens and placed in the house in fresh water. The best time to plant these Irises, like all other Irises, is September, to allow them a fair time to make new roots before the winter sets in.

French Bulbs for Early Forcing

AMERICAN GROWN

The Narcissi named below have been grown for us in the United States and are due to arrive at our packing house in August. They can be delivered upon arrival or at the time your order is received, for immediate planting in order to have early flowers. Follow the directions given with each variety, and you will have an abundance of dainty, attractive flowers in early winter. These are the earliest flowering bulbs we offer.

Lilium Candidum

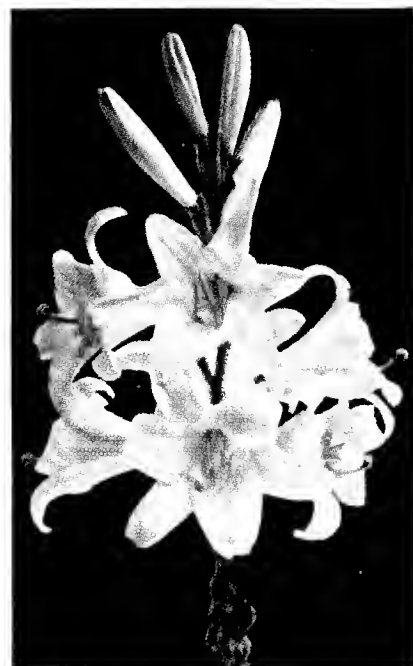

This is the exquisite Madonna Lily, which produces a large mass of snow-white flowers on straight stems. Plant these bulbs in the open in September or October, and protect them well from frost, as they are not extremely hardy, and during May or June you will have an abundance of flowers. Can also be planted in pots and by putting them in a cold frame for three months, well protected, then taking them into a greenhouse, the same success will be yours.

Jumbo bulbs only, 30c each; \$3.00 per doz.; \$22.00 per 100.

Golden Yellow Narcissus Soleil d' Or

Soleil d'Or resembles the Paper-White Narcissus very much in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We expect to have some very fine stock of this variety to meet the steadily increased demand of the past few seasons. Do not forget to order a few and get acquainted with this wonderful flower.

We offer only the Exhibition Size: \$1.50 per doz.; \$11.00 per 100; \$105.00 per 1000.

Lilium Candidum.

French Roman Hyacinths

French Roman Hyacinths are among the earliest bulbs to be had in flower. The bulbs arrive from France late in August, and, like all bulbs grown in the south of France, they may be had in flower from November all through the winter months, if potted up in September and at intervals of every two weeks. They are much prized for pots or cutting on account of their graceful appearance and delicate fragrance.

WHITE. Mammoth bulbs, 12 to 15 cms., \$1.00 per doz.; \$7.50 per 100; \$70.00 per 1000.

Jumbo Bulbs. 13 to 15 cms., \$1.25 per doz.; \$9.50 per 100; \$90.00 per 1000.

Golden Yellow
Narcissus.

Paper-White Narcissus

Suitable for Growing in Water and Gravel, Sand or Fiber

We handle only the Giant Grandiflora variety, which is a great improvement over the ordinary Paper-White Narcissus. It can be had in bloom from Christmas until Easter, either in pots, bowls or boxes. Upon arrival, plant them immediately, if wanted early, and put in a cool place in cellar or pit, free from frost. When well rooted they can be taken into heat, and if watered freely they will produce an abundance of beautiful blooms. They are not hardy.

Jumbo or Exhibition Size, 80c per doz.; \$6.00 per 100; \$58.00 per 1000.

Exhibition Hyacinths

These Are Positively the Largest Bulbs We Grow in Our Holland Nurseries

Except where noted, prices 17c each; \$1.70 per doz.; \$13.00 per 100.

QUEEN OF THE BLUES. Light blue. Extra fine for forcing; also does well in a bed.

Single White and Blush White

ARENTINE ARENDSE. Snow-white; special for early forcing.

GENERAL VETTER. Fine truss; large bells; almost pure white.

GRANDEUR A MERVEILLE. Blush white; large truss. Very attractive.

LA GRANDESSE. Pure white; long truss.

L'INNOCENCE. Pure white; large truss; extra fine large bells. Very fine bedder and forcer.

Single Yellow and Violet

CITY OF HAARLEM. Golden yellow. The purest and finest yellow Hyacinth.

DISTINCTION. Ruby-red, striped garnet; very early.

LORD BALFOUR. A beautiful large truss of a violet shade.

SIR WILLIAM MANSFIELD. Ruby-violet; splendid truss.

YELLOW HAMMER. The largest of all yellow Hyacinths. Light yellow, very fine truss.

Miniature or Dutch Roman Hyacinths

These are the Hyacinths used for growing in bulb-pans, and if planted 10 to 12 bulbs to an 8- or 9-inch pan, they cannot be surpassed. They are apparently small bulbs but in comparison to their size they produce immense flowers. On account of their low price and splendid results, they are very much in demand for house culture. By planting only one kind in a pan, the best results can be obtained, as then they produce an even growth. By following the same cultural directions as given for the Hyacinths, failure is impossible. They are also greatly used for bedding.

Narcissus or Daffodils

Explanation of Daffodil Classes and Types

YELLOW TRUMPET varieties have trumpets which as a rule are longer or as long as the perianth segments (petals). They usually have a light or deep yellow perianth with a trumpet of deeper yellow.

BICOLOR varieties have creamy or pure white perianth segments and yellow trumpets.

BARRI varieties have light or deep yellow perianth segments and an expanded crown instead of a trumpet, which is light or deep with red or orange edge.

INCOMPARABILIS varieties have light or deep yellow segments, a crown of light or deep yellow very similar to a short trumpet.

LEEDSI varieties always have white segments, while the crowns are white or light yellow. They are very dainty.

POETICUS. Snow-white segments, crowns usually heavily rimmed orange or scarlet with a green eye in center of crown.

POETAZ. Cluster-flowered in white, light or deep yellow. Some varieties have orange or red rimmed small crowns.

JONQUILS. Usually bear small flowers in small or large clusters on one stem, and usually are sweet scented.

Daffodils for Naturalizing

Hundreds of thousands of Daffodils are used yearly for this purpose, because when once planted they continue without any care to give you immeasurable joy year after year.

Numerous varieties have proved very successful for this purpose and we will use no others. Practically all types of Daffodils contain some varieties suitable for this purpose, thereby increasing the number of varieties and adding greatly to the desire of naturalizing Daffodils.

Only sizes which are most desirable for naturalizing without continuous care are selected for your favorite garden spot, "the natural garden." Only varieties having proved to be hardy are selected for this purpose.

Practically any soil has been found suitable, but when planted under and among trees and in woodlands, the leaves of the trees should not always be removed, as taking away this natural food will not only injure your trees but also will prevent the Daffodils from producing as they should.

Plant at least 8 inches deep but avoid places where water may collect at any time as they like drainage.

Try to plant them before October 15th or shortly thereafter, but place your order early as the demand is increasing for these bulbs at this special low price we have adopted. We cannot take orders for less than 50 bulbs.

Miniature Bulbs for the Rock Garden

Fritillaria Meleagris

Singular, dwarf, spring flowering plants, bearing large, pendent, bell-shaped flowers of various colors, in yellow, white, black, purple, striped and splashed, and checkered in the most curious way. They are invaluable for pot culture, and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation.

Mixed. Select mixtures. 50c per doz.; \$3.75 per 100; \$35.00 per 1000.

Chionodoxa

(Glory-of-the-Snow)

An early flowering spring bulb for borders or rockery. Produces flower spikes bearing 10 to 15 scilla-like flowers. Perfectly hardy and should be planted close together for effect.

LUCILIAE. Deep blue, with a white center. Selected mother bulbs, 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

SARDENSIS. Deep blue. 40c per doz.; \$3.00 per 100; \$28.00 per 1000.

Scilla Campanulata

All the varieties of Scilla campanulata are splendid for naturalizing because they will flower in shady places. All have bells like small Hyacinths, forming long, graceful spikes.

CAMPANULATA ALBA MAXIMA. Large, pure white. 45c per doz.; \$3.25 per 100.

BLUE QUEEN. Large, bright blue. 45c per doz.; \$3.25 per 100.

ROSE QUEEN. Soft lilac-rose. 45c per doz.; \$3.25 per 100.

Eranthis Hyemalis

(Winter Aconite)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrops, Scillas and Chionodoxas. The foliage remains long after the flowers, making the plant especially valuable in moist situations, such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 40c per doz.; \$3.00 per 100; \$28.00 per 1000.

Muscari

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of an entirely different form—grape-like clusters closely set—and are wonderful cut flowers. Always exquisite when naturalized.

ALBA. White. 50c per doz.; \$3.75 per 100; \$35.00 per 1000.

BLUE BIRD. An immense improvement over the former variety, the flowers being twice as large and growing taller, and of a delightful heavenly blue. 80c per doz.; \$6.00 per 100.

HEAVENLY BLUE. 40c per doz.; \$3.00 per 100; \$28.00 per 1000.

Snowdrops

(Galanthus)

Everybody knows the Snowdrops; with their little white bells coming through the snow; practically the first flower to show itself after the dreariness of winter. It is a wonderful bulb for naturalizing and for every garden.

NIVALIS. (Single). 40c per doz.; \$3.00 per 100; \$28.00 per 1000.

NIVALIS. (Double). 50c per doz.; \$3.75 per 100; \$36.00 per 1000.

Scilla Sibirica

Scilla sibirica naturalize splendidly, are cheap and so can be planted liberally.

SIBIRICA, BLUE. 45c per doz.; \$3.50 per 100; \$33.00 per 1000.

SIBIRICA, SKY BLUE. A trifle lighter blue than the former with large flowers of a most beautiful heavenly blue color. 60c per doz.; \$4.50 per 100; \$43.00 per 1000.

ENGLISH IRIS

(*Bulbous*)

**For
Outdoor
Planting
Only**

For years this most beautiful of all bulbous Iris was practically non-existent in this country and could not be imported. Fortunately we located a farm in Michigan where they can be grown very successfully and years of persistent cultivation has made us a stock equal to any in this country.

They are grown in mixed colors containing numerous shades of blue, purple, white, veined, feathered.

We want to interest every Iris lover in this most beautiful bulbous Iris and we have dropped the price within reach of everybody.

PRICE:

GERMAN IRIS

Garden Orchids

These beautiful Irises bloom early in the spring when the bulbs have just finished blooming, and because of their great variety of colors, they make a magnificent show. They are perfectly hardy and thrive in almost any soil; especially where they are exposed to the full sun. No home garden is complete without a few clumps scattered about, and they are also excellent for massing and bordering.

Extraordinary Offering of Assorted Tulips

We have listed all the leading varieties of Tulips in this catalog. Perhaps, however, you are one of those to whom names mean little. You may want a riot of gorgeous color, a mass of brilliant bloom, regardless of the particular varieties used. If so, these Assorted Tulips will appeal to you at the low prices quoted below.

We grow only named Tulips, each variety in a separate block. All our Assortments are made up separately for each order at time of shipment. The bulbs used in filling these orders are of exactly the same size and quality as those used in filling our orders for named bulbs.

We use twelve different varieties when filling an order for a dozen Tulips. And we include a much larger variety when making up orders for 100 and 1,000 lots of Assorted Tulips. In doing this, we carefully consider the color combinations, visualizing the garden effect the Tulips are to create.

This is your opportunity to secure the very finest Tulip bulbs for mass planting at prices far below the cost of named varieties.

A Good Product is Worth a Fair Price

You garden for pleasure and satisfaction. There is neither pleasure nor satisfaction in planting inferior bulbs, however low the price.

There is great satisfaction and almost limitless pleasure in growing flowers of immense size and striking beauty from our large, healthy bulbs.
